Let's enjoy Rainbow bridge walking and learn about Tokyo bay at Tokyo Minatorie

Hello friends!

Have you ever walked across the Rainbow Bridge? Not many people know it's also a pedestrian bridge with pathways (officially the "Rainbow Promenade") on both the north and south side of the bridge. Considering the Odaiba looks so mysterious we will take south route at the day, though the views from both sides are very impressive. We can enjoy about 30 minutes crossing the bridge on foot and additionally 10 minutes walking along on nicest artificial white beach to the Odaiba-Kaihinkoen station.

Odaiba area is very popular and famous place but not so many people know its hideway places including Tokyo Minatorie that is a kind of museum sponsored by Tokyo Metropolitan government Public relations department. The facilities are super and free of charge, but you have to learn the culture and history about Tokyo port. After learning, your charge will be 100% free!

Tokyo Minatorie museum we can have leaning time with nicest exhibitions. Before the end of the tour, we have a rest at the special room. That is relax time to chat.

The museum is adjacent to Telecom-center station 1 minute on foot. I hope all our member join and have fun together. See you very soon.
